

Tattoos in the Workplace

GI: Refer to Carmen as a student at a university
Align L.O. with G.I. itself (what should
Carmen do vs what should employer do?)

Company comparisons - compare comparable
positions (sales vs coders e.g.)

Recommend: make this descriptive, & remove
personal info about Carmen; (near length
will be shorter (currently too long))

* TN: Need to follow JCI formatting *

Recommended changes in wording
replace "decide" with "assess"

Smoking as a health issue perhaps doesn't
belong

May want to mention health consequences
of tattoos
